DETAILED ACTION

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claim 1 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 12 of prior U.S. Patent No. 6769248. This is a double patenting rejection.

Note: Claim 1 of the instant application corresponds to claim 46 of application 10/171,125. Application 10/171,125 was restricted into 8 Groups in an Office action dated 9/23/2003. In Applicant's response, dated 10/6/2003, Group II was elected, and it was requested that claim 46 be examined with Group II as it was directed to the same subject matter and claim 45 be removed because it actually belonged to Group IV. The request was granted and claim 46 was later issued in U.S. Patent No. 6769248 as claim 12.
